LSU QUOTES BY CHARLES McCLENDON.....

We came into the game not knowing what was going to happen. Colorado kept coming at us ...they never quit even when the game was out of control.

Sure I was worried about being ~~down~~ up at the half by only 14 ~~points~~ (14-0). We should have had a couple of more scores. I felt that at first, our passing game was going to be super-duper, then we dropped several that should have been caught.

I don't know if Colorado is all that bad. Chuck has a long way to go with the squad. We were opportunistic. We took advantage of the breaks. And the defense played up to what we felt they were capable of. We made a lot of mistakes ourselves. There were several things that we tried against them that didn't go.

We felt that they had the size on us but we felt that we could use our speed against them. We weren't as crisp as I had hoped to be but we were able to out ~~maneuver~~ maneuver them.

We were ready to play football. I think that seeing the Oregon films (on CU's 33-19 loss) gave our kids some confidence. But it's early in the season and it's really hard to say if Colorado is all that bad. They're working under a new coach and system and that can make a lot of difference early in the year.

Yes, on the whole, the offensive performance by the kids was pleasing. Now if we can just keep people off our quarterback's for the rest of the season, it could go well for us.

COLORADO LOCKERROOM QUOTES....Head coach Chuck Fairbanks

LSU has a pretty good defensive team and they will improve offensively as they go along. They are a good, solid football team.

I never approach any game thinking 44-0 (losses). It's embarrassing to me, it's embarrassing to my team. But I don't know what the magnitude of the loss really is. I know they're a lot better football team than we are.

We'll just have to keep working to improve ourselves.

I don't know how much we're going to improve. I think we can improve. But I think there will be some limits to how much we do improve.

Charlie (OB Charlie Davis) could've played today but I didn't do it for two reasons. I didn't think it was fair to put him in that type of situation or take the other player (Pete Cyphers) out of that situation.

The players want to do well, they like to play well. I don't think they're the type of team that will want to give up. But the prospects for having great success aren't very bright.
